Consultations are free. This is when you sit down with Dr. Rahmani one on one. He will answer any of your questions and tell you whether he feels you would benefit from the surgery. He will also go over your treatment options.

If doctor feels surgery is beneficial to you and you would like to proceed, testing will begin at that time. After continuing on with the extended testing there is an \$85.00 fee for patients who are candidates for the surgery, but choose not to schedule surgery. This is a non-refundable charge. However, for those patients who are not candidates for the surgery testing is free of charge.

In order to schedule a surgery a \$200.00 deposit is required, which is also non-refundable.

All fees collected apply toward the balance of the surgery.

If you have ANY insurance that provides coverage or a discount for Lasik surgery this MUST be disclosed at the time of your consultation.

I have been informed and understand the above statement.
