Your visit to our office will most likely require the use of dilation drops. Most patients are able to drive home safely since these drops only blur your reading vision as well as make you sensitive to bright light. We recommend you bring a pair of sunglasses with you. We do offer patients disposable sunglasses if you are unable to bring any.

Expect your visit to last one to two hours.

Please remember to bring:

- Glasses and/or contact lenses
- Health insurance cards
- Medicare/Medicaid cards
- Referral when appropriate
- Driver's license
- A list of all medications you are taking with dosage amounts

All patients that have insurance requiring a referral must have the referral into our office 1 day prior to their appointment unless you bring it with you on the date of your appointment. If you do not have your referral at the time of your appointment, you will need to reschedule.

Insurance company policies require that any co-pay must be made at the time of service.

Required forms for your visit are included in this packet and must be filled out completely and given to our office at the time of your appointment.

Thank you for choosing Rahmani Eye Institute
